BEHRING SEA.

England Seeking the Aid of Other Great Powers.

OTTAWA, June 24.—It is stated in official circles that no action will be taken at present by either the Dominion or British Governments in regard to protecting British sealing vessels in Behring Sea. The question as to the right of the United States to exclusive jurisdiction will for the present be held in abeyance, as on good authority, it is learned that the British Government is seeking the co-operation of several maritime powers of the world with a view to joining in the dispute of the United States' claim and in reference of the question to arbitration.

The British Government has requested the Dominion Government to take no action until a settlement has been arrived at in this way. It is stated that several maritime powers which have been invited to take part in the settlement in support of the contention of the British Government, holds that Behring sea is not a closed sea. It is also stated that claims for damages through the seizure of the British sealers by the United States cruisers will also be submitted to arbitration when the question of jurisdiction is taken up.

"Uncle Sam" and "O. K." There are many persons who habitually make use of the terms "Uncle Sam" and "O. K." who have not the slightest idea how these terms originated; and for the benefit of all such persons, we will give the origin.

Upon one occasion, a long time ago, a greenhorn asked a friend what U. S. stood for; and the friend, in a chaffing way, answered him that the letters stood for Uncle Sam. This facetious answer, having received publication at the time, became a standing joke, and gradually merged into a nickname for the United States.

Regarding the letters "O. K." which are now gradually sinking into disuse, they like the above, arose in the uneducated period of the past. An ignorant Customs officer had a quantity of packages to examine, and on those that he passed as all right he wrote in chalk "O. K. KOREK." Finally to abbreviate his mark, he towards the end of his work, made the initials "O. K." answer his purpose. This anecdote, receiving large publication at the time, gave rise to the generally accepted "O. K." Nearly all terms of a similar kind had a similar origin.
